

LEAD Technologies

About LEAD Technologies

LEAD Technologies, Inc. is a privately held company founded in 1990 by Moe Daher and Rich Little. Headquartered in Charlotte, North Carolina, LEAD was established to commercialize Mr. Daher's inventions in the field of digital imaging and compression technology. Over the course of LEAD's more than 20 year life span, LEAD has become the established global leader in the digital imaging development tool sector, with a leading market position in all major countries throughout the world. LEAD is the developer and publisher of LEADTOOLS, the award winning development toolkit.

Developer Tools

LEAD Technologies is the developer and publisher of LEADTOOLS, the award-winning line of development toolkits. LEADTOOLS is a family of comprehensive toolkits designed to help programmers integrate raster, document, medical, multimedia and vector imaging into their desktop, server, mobile and web applications. LEADTOOLS gives developers the most flexible and powerful imaging technology, offering development support for OCR, Barcode, Forms Recognition, PDF, Document Conversion and Viewing, Document Cleanup, Annotations, DICOM, PACS, HL7, audio/video codecs, MPEG-2 Transport, DVR, streaming, File Formats (150+), Image Compression, Image Processing, Color Conversion, Viewers, Special Effects, Scanning/Capture, Common Dialogs, Printing and more. A LEADTOOLS toolkit literally puts millions of lines of code at the fingertips of application developers. Whatever your programming needs, LEAD has a toolkit specifically designed to give you the best imaging technology available.

Imaging Applications/Utilities

LEAD has also developed its own line of end-user imaging applications and utilities. All applications were built using LEADTOOLS SDKs. The products range from the award-winning LEADTOOLS ePrint file converter and printer driver to a line of audio and video codecs developed using industry standard as well as LEAD's own proprietary compression.

Why Use LEADTOOLS

For over 18 years LEADTOOLS has been the standard of excellence in imaging developer tools. No other toolkit offers the depth of range of technology contained in our award-winning product line. From time-tested to industry and peer approval, here are the top ten reasons why you should choose LEADTOOLS for your imaging development needs.

Time Tested

LEAD has been shipping LEADTOOLS for over 18 years. We have a large development and support staff with extensive expertise and experience in both imaging technology and in development component design.

One SDK Vendor Who Does it All!

LEADTOOLS contains color, grayscale, document, medical, mobile, vector and multimedia imaging technologies. One CD, one development interface, one set of documentation, one tech support call, one software update, one contract.... Why deal with the hassle of using multiple vendors when you can have just one.

Industry LEADing Technical Support

- 1) Standard Support – Standard technical support is provided free to all registered LEADTOOLS customers. In addition, LEAD offers free Standard technical support to prospective customers working with evaluation versions of our products. Free Standard technical support includes unlimited email communication at support@LEADTOOLS.com, Live Chat at <http://www.leadtools.com/corporate/contact.htm> , and unlimited access to LEAD's online support portal at <http://support.LEADTOOLS.com/> including the community forums at <http://support.LEADTOOLS.com/SupportPortal/cs/forums> .
- 2) Premium Support - In addition to free Standard technical support, LEAD offers Premium support on a per "case" basis. Premium support allows customers to contact LEAD's support representatives by telephone. Support representatives may be reached by phone Monday - Friday, 8:30 - 6:00 EST, excluding national holidays.

Easy to Use

LEADTOOLS is designed to make your job as easy as possible. Our job is to help you get your project done and out the door on time. We include valuable developer resources, including extensive on line documentation, sample source code how-to videos, demos and tutorials, all designed to make your job easier and to allow your project to be completed sooner.

No Risk, No Worry

LEADTOOLS is available in a fully functional evaluation version. You can test all features and actually program with the evaluation copy before the purchase is made.
